PROFILE

Fourth-year Computer Science student with interests in Full Stack Development, System Analysis, and Software Design. Experienced in academic software projects, UI design, database design, and team leadership. Passionate about learning new technologies and building practical software solutions.

EDUCATION

Burapha University Faculty of Informatics Bachelor of Science in Computer Science
GPAX : 3.60

PROJECTS

Coffee Shop Management System

Role: Team Leader

- Led a team of 9 members and coordinated project activities throughout the development process
- Designed user interfaces to support daily operations within a coffee shop environment
- Developed the employee attendance module for recording check-in and check-out times
- Monitored project progress and facilitated communication among team members
- Participated in system testing and improvement before project completion

Technologies:

HTML, CSS, JavaScript, SQLite, Git

Student Assistance and Follow-up System (In Progress)

Role: System Analyst / UI Designer

- Gathered, analyzed, and documented system requirements
- Prepared software development documents including Use Case Diagrams, Sequence Diagrams, Data Dictionary, and system design specifications
- Reviewed and validated documentation to ensure alignment with project scope and stakeholder requirements
- Designed user interfaces and defined system workflows
- Collaborated with team members to support system analysis and development activities

Tools & Technologies:

Figma, Miro, Draw.io, UML

TECHNICAL SKILLS

Programming Languages : JavaScript, TypeScript, Python, SQL

Frontend : React, HTML, CSS, Bootstrap

Backend : Node.js, Express.js, REST API

Database : SQLite, MongoDB

Tools : Git ,GitHub, Figma, Docker (Basic)

Others : Agile, System Analysis, UML

EXPERIENCE

Part-Time Waiter

- Provided customer service and resolved customer issues in a fast-paced environment
- Collaborated effectively with team members to maintain service quality
- Developed communication, teamwork, and time management skills
